

FUNDRAISER FOR DAVID

The
David Azhar
Appeal

21ST FEBRUARY 2015, 7.30PM-11PM, CARTHIA QUEENS PARK RUGBY CLUB

LIVE BAND AND AUCTION

In 2001 at the age of 16, David had his accident whilst playing Rugby. This resulted in paralysis from his neck down. David doesn't harbour any resentment, moan or feel sorry for himself. But instead makes the most of his predicament and strives to be the best he can be. After the accident, David attended Strathclyde University and graduated in Psychology. David is currently employed at the family business where his psychology degree is an asset and always gives 100%.

Due to David's high level of disability, he requires round the clock care and special adaptations to his living environment. In supporting this event you be will improving his quality of his life in helping maintain his recovery and rehabilitation at home.

When times get hard and the chips are down, its your friends and family that are there to give you a wee hand. This is what the rugby community is all about. He is a total inspiration and one of the nicest dudes I've ever met: his attitude to life is phenomenal and I can honestly say he is my new role model. Hanging out with David these last few months has given me a totally different perspective on life.

David and his family would like to thank you for supporting this night
